Projects

Costs Calculator

Costs Calculator for a socks company

- Developed in PHP & MySql (Yii 2 framework Adv-template)
- Calculate the price of socks products and to issue price lists and invoices.
- Customers who visit the online showroom can ask for a price list.
- The sales representative, by logging in, can provide the price list, add new products, and issue invoices with shipping cost fees and commission fees if they are required.

YouTube clone

Website similar to YouTube

- Developed in PHP & Mysql (Yii 2 framework basic template):
- Registered users can add videos, like, dislike, comment.
- Admin manage the whole website.

Medicine E-commerce

- Developed in OOP, ADO.NET in C#
- The user can add, delete, and update a medicine & a customer.
- Also, the user can issue the sales invoice.
- Multiple users can login to this application and only the administrator can see a report to know the login and logout (date & time) for each user.

Education

B.tech Computer science engineering
